Appl. No. 09/890,674 Atty. Docket No. 7414 Amdt. dated 09/04/2003 Reply to Office Action of 6/5/03 Customer number 27752

ABSTRACT

Detergent compositions are formulated with a mixture of hydrophobically modified cellulose polymers or oligomers and cyclic amine based polymers or oligomers. The cellulose/amine mixture maintains the integrity and appearance of fabrics laundered in the compositions. Dye maintenance and anti-pilling benefits are provided. The compositions are provided in containers which alert the user of the benefits provided by the compositions.
